	InDesign Share for Review	Document Cloud Share for Review	PDF Comments (InDesign)	InCopy & InDesign
Available markup tools	Pin, Highlight text, Strikethrough text, Replace text, Draw	Sticky Note, Highlight, Underline, Strikethrough, and Draw	All desktop Acrobat Pro tools (only Sticky Note, Highlight, Underline, Strikethrough, and Draw in Adobe Reader and for web-based reviews)	InDesign Notes, Track Changes (optional)
PDF required	No	Yes	Yes	No
Acrobat license required	No	No	No (for web-based review and Reader limited markup)	No
Comprehensive set comment markup tools	No	No	Yes, when PDF is opened in Acrobat Pro	N/A; InCopy is part of an integrated editorial workflow)
Privacy/security options	Public link or e-mail specific invitation	Public link or e-mail specific invitation	Public link or e-mail specific invitation	N/A; content from InDesign layouts is assigned to specific users in the workflow
Aggregated comments from multiple reviewers	Yes	Yes	Yes (if multiple marked-up PDFs are imported)	N/A;
Integration with InDesign	Yes	No (but PDF can saved locally for comment importing)	Yes	Direct connection to InDesign's Assignments panel
Live updating (online and in-document)	Yes	No	No	No; assigned stories are proactively checked in or out
Direct navigation to commented content	Yes	No (unless InDesign source file is available and commented PDF is saved locally)	Yes	N/A; checked-in assignments updated automatically within InDesign
Advantages	Fast sharing without leaving InDesign and live, in-document comment/markup updates; no PDF creation required for review process	PDFs from any source (InDesign, Word, etc.) can be shared without reviewers needing Acrobat or any other Adobe software	Faster, less cumbersome than opening/ reviewing multiple PDFs in Acrobat; Replace Text comments automatically applied in InDesign file without copy/paste or re-keying.	Full assignment-based editorial workflow support between writers, copy editors, and designers
Best for	Direct, time-sensitive collaboration between a designer in InDesign and a reviewer who may not have any Adobe software entitlements	Broad distribution to multiple stakeholders for review where Adobe entitlements are not a certainty and reviewers can benefit from seeing all other comments in one place.	Accurately and efficiently incorporating PDF edits and comments from multiple reviewers who may be using Acrobat Pro, Reader or Document Cloud Share for Review.	Distributed co-editing (e.g., editorial workflows) where writers can view/modify text in context without impacting layout or locking designers out of the InDesign file.
